Checklist

- **Students to print checklist separately.**
- Confirming the checklist is only for ensuring completeness, correctness and quality of report. Use the checklist to confirm all aspects are fulfilled.
- Confirming the checklist does not assure full marks. In addition to report, marks are awarded for other aspects of the project viz. implementation and presentation.
- **Do not include this checklist in the report.**
  - A. Confirm **Formatting** – line spacing, paragraph justification, font size.
  - B. Confirm **Text** – details, spellings, grammar
  - C. Confirm **Figures and Tables** - in-text citation, description
  - D. Confirm **Figures and Tables** – updated in List of Figures and Tables
  - E. Confirm **Citation** – all sources referred are cited
  - F. Confirm **References** –all sources referred are updated in Reference section

Faculty to mark 'X' in columns not confirming

Sl. No.	Description	A	B	C	D	E	F
	Declaration	✓	✓			✓	
	Acknowledgement	✓	✓			✓	
	Abstract	✓	✓			✓	
	Table of content	✓	✓	✓	✓	✓	
	– confirm Section, sub-sections from all chapters included.						
	– confirm Page no. of Section, sub-sections updated						
	– confirm Page no. are aligned to right						
	List of Figures	✓	✓	✓	✓	✓	
	– confirm Caption of Figures from all chapters included.						
	– confirm Page no. of figures updated						
	– confirm Page no. are aligned to right						
	– confirm Figures are numbered correctly						
	List of Tables	✓	✓	✓	✓	✓	
	– confirm Caption of Tables from all chapters included.						
	– confirm Page no. of tables updated						
	– confirm Page no. are aligned to right						
	– confirm Tables are numbered correctly						
	Abbreviations	✓	✓	✓	✓	✓	
	– confirm Abbreviations used in all chapters included						
	– confirm Abbreviations are in alphabetic order.						
	– confirm Abbreviations appear only once in list and are not repeated						
1.	**Introduction**	✓	✓	✓	✓	✓	✓
	1.1 Background of the Project						
	1.2 Statistics of the Project						
	1.3 Prior existing technologies						
	1.4 Proposed approach						
	1.5 Objectives						

	1.6 Alignment with the Sustainable Development Goals (SDGs).						
	1.7 Overview of project report						
2.	Literature review						
	2.1 Automatic Cattle Identification based on Multi-Channel LBP on Muzzle Images	✓	✓	✓	✓	✓	✓
	2.2 Automatic Cattle Identification based on Fusion of Texture Features Extracted from Muzzle Images						
	2.3 Identification of Cattle's Breed Type by Processing Image using Deep Learning Models						
	2.4 Cattle Breed Detection and Categorization Using Image Processing and Machine Learning						
	2.5 Research on Multi-View Cattle Facial Recognition Algorithm Based on Feature Matching						
	2.6 Video-Based Analysis of Cattle Behaviors: Improved Classification Using FlowEQ Transform						
	2.7 A Hybrid Deep Learning Based Robust Framework for Cattle Identification						
	2.8 Cow Face Recognition with Noise Labels Using Vision Transformer						
	2.9 Contour Extraction of Individual Cattle from an Image Using Enhanced Mask R-CNN Instance Segmentation Method						
	2.10 Identification of Different Types of Buffalo Using YOLO Algorithm Based on Computer Vision						
	2.11 Graph Synthesis for Pig Breed Classification from Muzzle Images						
	2.12 A Vision-Based Cattle Recognition System Using TensorFlow for Livestock Water Intake Monitoring						
	2.13 Identifying the Optimal Deep Learning Based Image Recognition Technique for Dog Breed Detection						
	2.14 Dog Breed Detection using YOLOv7 and WOA-CNN						
	2.15 A Comprehensive Analysis of Classic Machine Learning and Deep Learning Modelling for Breed Recognition of Bananas						
	2.16 Literature Survey of All Papers						
3.	Methodology						
	3.1 System Architecture Overview	✓	✓	✓	✓	✓	
	3.2 Module Descriptions						
	3.2.1 User Interface and Frontend						
	3.2.2 Normalization and Data Control						
	3.2.3 Intelligent Ranking Algorithm						

	3.2.4 Information Enrichment						
	3.3 Performance & Reliability						
4.	Project management	✓	✓	✓	✓	✓	
	4.1 Project timeline						
	4.2 Risk analysis						
5.	Analysis and Design	✓	✓	✓	✓	✓	
	5.1 Problem Analysis.						
	5.1.1 Identification Challenges						
	5.1.2 Technical Barriers						
	5.1.3 Economic and Conservation Impact						
	5.2 Requirement Analysis.						
	5.3 System Flow Diagram						
	5.3.1 Step-by-Step Flow Logic						
	5.4 Tools and Technologies						
	5.5 Summary.						
6.	Software and Simulation	✓	✓	✓	✓	✓	
	6.1 Overview.						
	6.2 Database Implementation.						
	6.3 Backend Implementation.						
	6.4 Frontend Implementation.						
	6.5 Integration and Workflow.						
	6.6 Simulation Workflow.						
7.	Evaluation and Results	✓	✓	✓	✓	✓	
	7.1 Functional Evaluation						
	7.2 Usability Evaluation						
	7.3 Performance Evaluation.						
	7.4 Security and Reliability Testing.						
	7.5 Results						
8.	Social, Legal, Ethical, Sustainability and Safety Aspects	✓	✓	✓	✓	✓	
	8.1 Social aspects						
	8.2 Legal aspects						
	8.3 Ethical aspects						
	8.4 Sustainability aspects						
	8.5 Safety aspects						
9.	Conclusion	✓	✓	✓	✓	✓	
	9.1 Conclusion.						
	9.2 Limitations.						
	9.3 Future Enhancements.						
	References	✓	✓			✓	✓
	Base Paper	✓	✓			✓	✓
	Appendix	✓	✓	✓	✓	✓	

Remarks:

NO Issues.

I confirm that I have uploaded all the required documents for the final project submission as per the given instructions. The same has been verified and approved by my guide.
